Comprehensive Solutions

32
years of experience

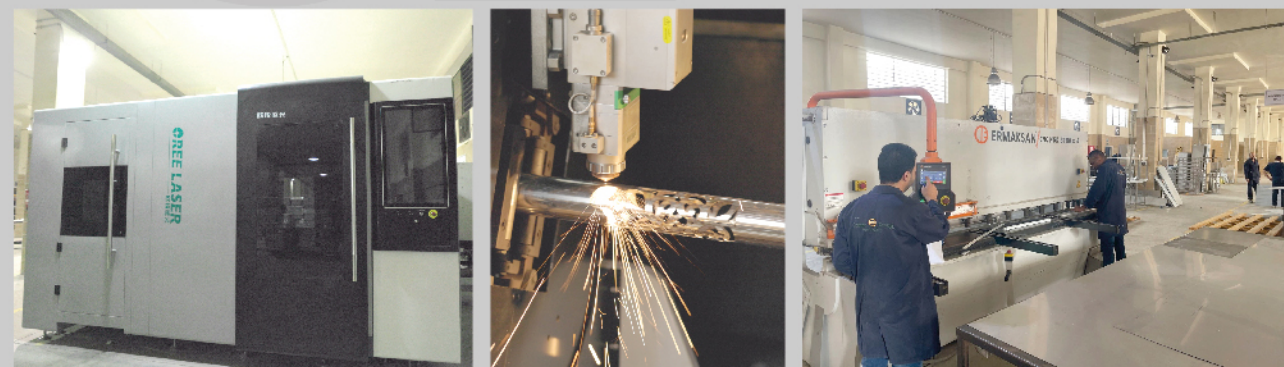

Introduction

We are thrilled to announce our expansion into Dubai market, bringing with us an impressive 32 years of experience in the Egyptian market in food and beverage industry and premium food services equipment, with a proven track record of success and a wealth of knowledge, we are confident that our expertise will make a significant impact in Dubai's thriving market!

Throughout our years of operation in Egypt, we have established ourselves as one of the leaders in the food and beverage sector, earning a reputation for delivering high-quality equipment, products and exceptional services.

Our experience has allowed us to develop a deep understanding of customer needs, wants, preferences, market trends, and industry best practices!

Comet Global Company is a collaboration between Comet Group and New Star Companies. Our goal is to expand operations and bring our wealth of experience and knowledge to the dynamic market of the United Arab Emirates!

Founders

Comet Group

Comet Group was established in 1992 by Eng. Medhat Bahnassy the Chairman with a previous experience of six years in the field of designing, supplying, and installing kitchens, food service, bakery & pastry, and laundry equipment for hotels & touristic projects. With an incredibly ambitious vision, we aimed to not only meet but set new standards that exceed the existing local and global ones, we believed that we must evolve ourselves and our market.

- In 1999, Comet Group established its first branch and showroom in Sharm El Sheikh with an extended vision of serving existing and new hotels with special kinds of service using a qualified team of sales, administration, engineers, and technicians. Huge investment, focus, specialization, and hard work allowed Comet Group to guarantee its clients a special kind of high-quality service to achieve the quality standard that the market demands.
- In 2011 Comet Group established its new branch in Hurghada, thus a new luxury showroom in the red sea area offering a variety of services to our clients for all kitchen, bakery, pastry and F&B equipment and small kitchen tools.
- In 2012 Comet Group expanded to cover the gulf area by opening a new branch in Doha - Qatar (Comet Group Qatar) with the same concept of high quality service supporting our business with a qualified and experienced technical team.
- In 2020 Comet Group for Industry, the biggest step in comet group's evolution thus far, a fully-fledged manufacturing facility that doubles as our administration and showroom on Egyptian grounds.

Comet Group for Industry manufacturing is the future of Egypt, and we set the standards in the Egyptian food service industry, our focus is to use our knowledge and experience in the industry as well as our partnership with the European brands that we worked with for so long to enhance the quality of the commercial kitchen equipment manufactured in Egypt to deliver the value and reliability your operations needs even in the most demanding kitchen environments. This is the biggest step in our growth. A fully developed manufacturing facility with an administrative building and showroom claiming to be the best in the market by international standards as our goal is to fulfill our local market needs and furthermore expand to the global market.

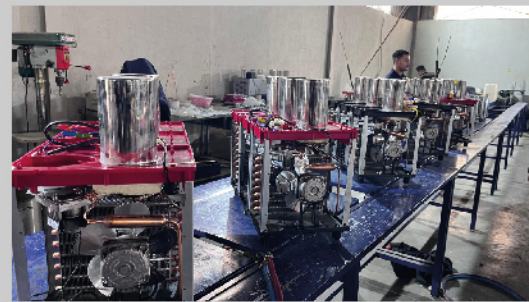

Founders

New Star

New Star International Group was founded by Mr. Sameh Takwaa in 2003 as a parent company for various subsidiaries, specializing in the design, supply, installation, and maintenance of a diverse range of imported and manufactured kitchen equipment with the latest technology. Our strategy always aims to fulfill customer needs and endeavors to meet their distinct requirements.

- In 2007, we established our Factory (STS) for industrial kitchen equipment, responsible for meeting our customers' needs for local kitchen and refrigeration equipment and all related accessories.
- In 2016, we established our Factory (VERADO) for café and bar equipment (Juice & Slush Dispensers, Ice Cream Machine, Blenders, Sand Coffee Machine, etc.), marking the first factory in Egypt and the Middle East specialized in café & Bar equipment with European standard specifications.
- In 2017, we established our Factory (PMV) for PASTRY and SALAD Refrigerators with European standard specifications.
- In 2018, (Pretto Food) with the Trademark PRIVA was founded by Dr. Samer Takwaa and Dr. Fady Takwaa, specialized in producing high-quality ready-Mix powder Products (Food and beverages). All Priva products are characterized by quality, hygiene, taste, and affordable prices, to meet the needs of hotels, tourist villages, restaurants, and Cafes.

During this period, we opened a new branch and Showroom in Hurghada to serve our customers in the Red Sea.

Founders

 **modular**

SUPPLYING KITCHENS ALL OVER THE WORLD FOR 40 YEARS

Modular specializes in the design and manufacture of cooking systems for professional kitchens. Modular, robust and reliable elements, are designed to offer maximum performance for the timeless kitchen. The modern production centers of Modular were founded in Italy, a land of ingenuity and application. In an area of more than 25,000 square meters is installed the latest automated systems for the processing of stainless steel, robotized welding stations, and foaming and assembly areas. Each production technology lightens the workload of the operative who can devote more attention to the quality of the products. Our specific knowledge of production processes and kitchen organization allows us to enhance the use of space, and to design tailor-made solutions for every catering business.

ONE GROUP. ONE STYLE. ONE KITCHEN.

Unox ovens are intelligent self-washing ovens. Having a commercial oven in a kitchen, a laboratory, a pastry shop or a delicatessen plays a key role for both the realization of successful dishes and the adoption of a more profitable working method that increases quality and profits.

www.unox.com

Scotsman is the world's leading ice machine manufacturer for one basic reason. We understand, better than any other company, the critical importance of ice to any number of businesses. From hotels, restaurants, bars, supermarkets and fast-food outlets, to hospitals, laboratories, fisheries and food processing facilities, Scotsman machines play a crucial role in the success of each operation. With a reliable supply of cubes, flake, superflake, scale, nugget, and gourmet ice, in quantities that range from one cube at a time to 10 tons of ice a day, Scotsman is clearly the Ice The World Demands™.

Scotsman Ice Systems pioneered the development of affordable, reliable ice-making machines in the 1950s. Over a half a century of research, innovation and superior customer service later, we remain the largest manufacturer of ice machines in the world with distributors and authorized service agents in over 100 countries. Today there are more than a million Scotsman ice machines at work around the world.

MORE THAN 65 YEARS OF HISTORY

Santos, French manufacturer of food, coffee and juice equipment was created in 1954, by André Fouquet. Originally, the company was providing professional coffee grinders and cheese graters to small retailers. 68 years after the launch of its first products, Santos continues to grow and the R&D department develops new and innovative products based on our savoir-faire with respect to production of motors. This is one of the reasons why Santos products are reputed for their robustness and reliability.

FIMAR S.P.A.

Fimar is the first brand born within the group in 1979 from an idea of its founder Oriano Tamburini who, after several years working with his father-in-law in a small precision workshop for third parties, decided to found a new company for the production of food preparation machinery.

www.fimarspa.it

Rieber

Everything from a single source | Quality Made in Germany since 1925

Rieber combines this material technology with its many years of know-how in stainless steel processing through process technologies, enabling the stainless steel to be further processed for a wide range of industrial applications.

FROM THE IDEA TO THE DESIGN TO THE FINISHED PRODUCT.

This includes classic processes such as joining, annealing, welding, cutting and surface finishing, as well as complex professional forming, the deep drawing of stainless steel. This core competence is the prerequisite for being able to realise hygienically flawless "dematerialised" products across all business areas.

www.riever.de

Since its inception in 2000, ICE TECH is one of the main players in the ice maker business.

The ICE TECH team is fully dedicated to provide products that satisfy our customers needs, and guarantee an added value by means of cost reduction and increased productivity.

In our facilities in Spain, with a manufacturing area of 35.000 m2, the company designs, produces, and distributes a complete range of ice makers, with more than 100 models,

ITALIAN KITCHEN EQUIPMENT SINCE 1994

From over twenty years on the market, INOXBIM keeps on believing in cornerstone points of its constant growth: innovation of productive trials, environmental guardianship, assistance to clients and guarantor employment places on its own territory.

Innovation, savings, quality and Made in Italy are the key words on which the company is expanding its offering of consulting and customer service.

Sambonet represents the Italian excellence in the production of stainless steel and silverware cutlery and holloware. From classic moods to design experiments, passing through colored finishes or vintage effects. Discover the Sambonet collections.

Martellato Srl was born in the 1980s from an idea of its founder, but in reality its roots go back several years. Nereo Martellato, Alessandro's father, was deeply attached to the world of confectionery and baking. He appreciated the commitment and passion he felt when talking to an artisan, and with the same commitment and passion he sought solutions to their requests.

The products he created were born from a need noticed in a pastry shop, from a chat with a baker, from a glance in a workshop. In this way Nereo realised that professionals needed a wider range of articles.
